

# WHATEVER FLOATS YOUR BOAT

*Key of Ab Capo 1st*

*G* *Em*  
I hear you pace the floor, night after sleepless night  
*Am* *C G D*  
Waging that civil war...trying to put your wrongs to right  
*G* *Em*  
But all the worry in the world ain't going to change a thing  
*Am* *D*  
So just remember little girl, when the tide comes rolling in  
*G*  
CHORUS: Whatever floats your boat (floats your boat) g  
*Em*  
Whatever gets you high (gets you high)  
*Am* *C G D*  
Whatever spins your wheels (spins your wheels)...whatever makes you feel alright  
*G*  
Girl in the this cold hard world (cold hard world)  
*Em* *Am D G D*  
When you're all at sea (all at sea).....whatever floats your boat...is alright by me  
  
Troubles on your mind, strangers at your door  
You search but never find the answers you came looking for  
With so much sadness in the world, you need a way to break on through  
So just remember little girl. Anytime you get the blues

CHORUS:

I'm just a heathen fool. The only thing I know  
The simple truth can be so cruel, ain't nobody going to save your soul  
We're living in a wicked world, pain, and heartache all around  
So just remember little girl...when you feel you're going down

CHORUS X 2
